supplied by

NUSTART ELECTRIC MOTORS CC

identified by Inspection Authority number

S-XPL/02377

and as described in test report, No XPL/5077/02377, is hereby certified "Dust Ignition Protected DIP", having been tested and assessed in accordance with the relevant requirements of South African Standard:
SABS 969:1970 (including Am's 1 to 3) "Enclosures for electrical apparatus for use in Class II, Divisions 1 and 2 locations (dust-ignition-proof or hose-proof or both)"

Locations	Zone 21 and 22	Dust Surface
Description		Occurrence of explosive dust clouds or metallic dusts under normal operating conditions in a hazardous location in a surface plant.
Environment		Metallic and Non-Metallic Dusts
Limiting Temperature		120°C

This certification indicates compliance with R21.17.2 of the Mine Health and Safety Act and/or EMR 8(1) of the Occupational Health and Safety Act, provided that the apparatus is used as relevant in accordance with:

i) SABS 086 requirements;
ii) Any conditions mentioned in the above report;
iii) Any relevant requirements and codes of practice enforced in terms of the Mine Health and Safety Act or Occupational Health and Safety Act; and
iv) Any restrictions and conditions enforced by the Chief Inspector of Mines or the Principal Inspector or the Chief Inspector: Occupational Health and Safety.
